

Donald Marshall
1934 - 2018

A passing comment
A mind quiet superb
With a generous personality
Dedicated to his craft
Tireless in his art
Academically inclined
While clinically refined
Conveying his talent
For the benefit of mankind

ave atque vale

He was the toast of many acknowledging his altruism Don educated me in his style for a period of almost 5 years in the art and science of Reconstructive Surgery

Credit: Felix Behan, Parkville

Professor Marshall's outstanding career was recognised by the receipt of numerous awards including the distinguished Prince Henry's medal and Member of the Order of Australia.

Patron of Interplast, the incredible contribution made by Professor Marshall continues to be recognised by Interplast through the annual Marshall International Scholarship.

His numerous achievements span generations and he will be sorely missed.
